

Extreme performance - under - Extreme conditions

The **AeroPTZ** is an environmentally rugged camera designed to meet extreme weather conditions.

Using the latest aerodynamic technology and salt-air corrosion resistant glass fiber body, the **AeroPTZ** can withstand the beating from tropical storms, arctic blizzards, extreme hot and cold temperatures, and gale-force winds.

Additionally, a unique Panasonic Video Stability Augment System (SAS) delivers superior, high-class hybrid image stabilization for extreme scenes with vibration.

Making the **AeroPTZ** well-suited for ports, cities, highway, transit, airports and other outdoor mission critical environments where failure is not an option.
